

PRIVACY POLICY AND DATA SECURITY STATEMENT FOR THRIFTER-UG

Last Updated: June 2026

1. Introduction and Legal Framework

This Privacy Policy describes how **E.R.C INNOVATIONS UG LIMITED** ("we", "us", or "our") collects, protects, uses, and shares personal data from users and commercial vendors of the **Thrifter-ug** mobile application marketplace. This document is compiled to satisfy the strict requirements of Uganda's Data Protection and Privacy Act, 2019, and the Electronic Transactions Act, 2011.

2. The Data We Collect

To provide marketplace and e-commerce services, we collect the following types of information:

- **Customer Identity & Account Data:** Full Legal Name, Email Address (utilized as the primary account authentication identifier), Phone Number, and Delivery/Physical Address.
- **Customer Preference Data:** Wardrobe data and shopping profile metadata (including saved fashion items, favorites, and curated lists per user account).
- **Vendor / Merchant Commerce Data:** Commercial store name, physical shop or warehouse coordinates/location, business biography, and commercial phone number.
- **Technical & Usage Analytics Data:** Internet Protocol (IP) address, device operating system details, and precise app interaction tracking markers via PostHog event logs.

3. Analytics Tracking and Behavioral Events

To optimize our marketplace interface, we collect automated usage events via PostHog integration. By interacting with the platform, you explicitly consent to the logging of behavioral actions, which include:

- Product item views and detailed wardrobe/favorites additions.
- Visual image search queries processed by the application interface.

4. Purpose of Processing and Data Retention

We process your personal data strictly to fulfill e-commerce product orders, verify marketplace vendors, route customer communication to sellers, manage digital wardrobe profiles, and

process local taxes. In accordance with Section 17 of Uganda's Electronic Transactions Act, all transactional invoices, financial metadata, user account histories, and vendor registry logs are securely retained for a mandatory minimum period of **seven (7) years**.

5. Third-Party Disclosures and Global Data Transfers

To power our platform infrastructure, information is shared securely with trusted digital dependencies. You explicitly consent to data being processed by:

- **Pesapal Uganda:** For secure local mobile money and card transaction routing.
- **Supabase, Inc. & Vercel, Inc.:** For core cloud database hosting, primary email account authentication, and edge interface computing (hosted globally in the United States and European Union).
- **Cloudinary, Ltd.:** For secure cloud asset hosting of item listings, user profile imagery, and vendor product photos.
- **PostHog, Inc.:** For platform event logging, visual search analytics, and interactive usage tracking.

6. Data Security Measures

We enforce robust physical, technical, and administrative protections to safeguard all collected personal data from unauthorized access, breach, or alteration:

Encryption in Transit: All traffic utilizes strict Transport Layer Security (TLS 1.3) cryptographic HTTPS protocols.

- **Encryption at Rest:** Databases deployed across cloud architecture nodes use Advanced Encryption Standard (AES-256) encryption.
- **Access Control:** Administrative system dashboard controls require strict Multi-Factor Authentication (MFA).
- **Financial Isolation:** Payment processing is sandboxed entirely via Pesapal. Raw mobile money PINs or credit card numbers are tokenized and never pass through or enter our system storage pools.
- **System Failure Redundancy:** Continuous automated cryptographic cloud database backups are maintained daily.
